Closer

Measure

Turn the light off, I want to go unnoticed
Or if you see, come follow me outside
I'm ready, ready, ready, if you are
I'm stalling, stalling, stalling, by my car
She's not picking, picking, picking, up her phone
I am waiting, waiting, waiting, outside, alone
I want you more, I want you more
Thatâ€™s what I came for
I want to be closer

Weâ€™re older now
So we both have our reasons
And in the sense not to make a mess.
So I keep checking, checking, checking, our distance
And weighing, weighing, weighing, resistance
It feels like safety, safety, safety, to shut down
And stop chasing, chasing, chasing, you around
But I want you more, I want you more
Thatâ€™s what I came for
I want to be closer

I want you more, I want you more
Thatâ€™s what I came for
I want to be closer
