Die With Me

Avatar

Now like a bird she flew away
To chase her dreams of books and praise
Still I miss her, yeah I miss her, since she's goneAt JFK, who played the fool?
Self pity sick jet fuel perfume
Still I miss her, yeah I miss her, since she's goneGirl I want to die with you
In each other's armsIf this time were the last time
Could I hold you, hold you, hold you all life long?
Since this time is the last time
Can I hold you, hold you, hold you all night long?Lay your head down
For the last time, the last time
For the last time, the last timeLay your head down
For the last time, the last time
For the last time, the last timeHey KLM AT and T, the UK post system
Do you still love me?
Still I miss her, yeah I miss her, since she's goneGirl I want to die with you
In each other's arms
