

# She Rides Away

David Nail

Sunset on the chapel,  
When I close my eyes, I see her and she's prayin'  
Ripples in the holy water,  
Kneelin' in the light that is fadin'  
Asking for forgiveness  
'Cause she knows that it is me that she is breakin'  
Angel flyin' with my heart She rides on the edge of no tomorrow in a rusty El Camino  
She flies as wild as the wind on the border of Laredo  
She rides away  
Questions in the dark  
She rides away  
Angel's flyin' with my heart Mystery surrounds her,  
She's the moonlight and the daylight, ain't no answer  
Blacktop on the sand  
While the desert just goes on and on forever  
She told me when I met her  
She would leave like it was written in red letters  
Angel flyin' with my heart She rides on the edge of no tomorrow in a rusty El Camino  
She flies as wild as the wind on the border of Laredo  
She rides away  
Questions in the dark  
She rides away  
Angel flyin' with my heart Sunset on the chapel,  
When I close my eyes, I see her and she's prayin'  
Asking for forgiveness  
'Cause she knows that it is me that she is breakin' She rides on the edge of no tomorrow in a rusty El Camino  
She flies as wild as the wind on the border of Laredo  
She rides away  
Questions in the dark  
She rides away  
Angel flyin' with my heart  
Angel flyin' with my heart
