## Brainstorm

You say.  
My body, my hand  
My heaven, my land  
My guardian angel is mineYou say - my dreams, my head  
My sex, my bed  
And it's my corona with limeAnd then I say .  
Maybe we could divide it in two  
Maybe my animals live in your zoo  
Maybe I'm in love with youYou say...  
My hate, my frown  
My kingdom, my crown  
My palace and court is mine  
You say...  
My lights, my show  
My years to grow  
The time that I spend is fineAnd then I say ...  
Maybe we could divide it in two  
Maybe my animals live in your zoo  
Maybe I'm in love with youBut you say my coat, my hat  
My bones, my fat  
My zipper is shut by meYou say...  
My skin, my blood  
My devil, my god  
My freedom is what you see  
But still I say  
Maybe we could divide it in two  
Maybe my animals live in your zoo  
Maybe I'm in love with youMy beginning, my end  
My nuclear bomb to pretend.
