Heatwave

Charli XCX

It's gonna be a heatwave
The sun is shining through the clouds
I put my love into your mouth
And I feel so high I can't come down
A heatwave
I feel your magic on my skin
You dance around me in the wind
Open your heart and let me inI wanna dance in the sunlight, get me on my knees
I'm gonna kiss your body in the summer breeze
You got a killer smile and I love your steeze
Come and kiss my body, I'm begging pleaseYou are a super special, take me home
Our love extra special, tastes like gold
This is another level, oh my God
I know you need it 'cause you're screamingHeatwave
The sun is shining through the clouds
I put my love into your mouth
And I feel so high I can't come down
A heatwave
I feel your magic on my skin
You dance around me in the wind
Open your heart and let me inI wanna dance in the sunlight, get me on my knees
I'm gonna kiss your body in the summer breeze
You got a killer smile and I love your steeze
Come and kiss my body, I'm begging pleaseYou know I like it when we're playing in the summer breeze
I know you like to tease me, you've always got me on my knees.
I'm falling for you more and more every time I stare into your buttercup eyes.
I'm in love (x4)
