Moonshine

Fran Healy

Well my eyes are closed
But my heart's on fire
Because the clock is approaching
The midnight hour
I leave my window open
All the lights are out
And from the darkes night
Comes the lightest shout

Moonshine

Moonshine moon

The cow jumped over the moonshine moon

Moonshine

Moonshine moon

I'll love you tonight under the moonshine moon

Well as we walk through the streets

There's no-one nowhere

And our nightgown's trailing

And our feet are bare

I don't know where we're going

And I don't careJust as long as you're here

And the moon's up there

Moonshine

Moonshine moon

The cow jumped over the moonshine moon

Moonshine

Moonshine moon

I'll love you tonight under the moonshine moon Now all the little boys and girls around the town Dreaming through the darkness till the moon goes down

But me and my baby gonna be up all night

Dancing under the moonlight

Moonshine

Moonshine moon

I'll love you tonight under the moonshine moon

Moonshine

Moonshine moon

The cow jumped over the moonshine moon
