I en dresin
Flyter me sammen mot en fantasi
I en dresin
Mens lyset fra byen flakker forbi
La meg stenge av
La meg slumre litt til

Det som flyter dies vei

VirkeligEnglish translation:
In a draisine, we float together towards a fantasy
In a draisine, with the city lights flickering by
Let me close it all out
Let me sleep a little more/ Leave me to my slumber
Everyone just says
What they think they have to say
Everyone just says
Whatever comes their way
I levitate
And leave the tracks
By a wave with my magic wand
Let me close it all out
Let me sleep a little more/ Leave me to my slumber
[x2]Is it magic
When it feels this real?
