

Head In My Hands

The Expendables

We all have our problems
We all make the same mistakes as you
We all get our hands full
Nothing we can blame or tie things to
Maybe if I close my eyes
I can keep her picture in my mind
To save me from the daily stress
For my mind to take a rest

I am holding my head in my hands
I don't care if you can understand
I'm steppin' out of myself for now

I am holding my head in my hands
I don't care if you can understand
I'm steppin' out of myself for now

I finally found a moment
Nothing in this world can bring me down
Ill take it and hold it
'cause in my head i wont even hear the sound
And if for only for a second in time
We can just forget these hectic times
To life to love to time to wealth
We just need some time to our self

I am holding my head in my hands
I don't care if you can understand
I'm steppin' out of myself for now

I am holding my head in my hands
I don't care if you can understand
I'm steppin' out of myself for now

(guitar solo)

Ooh ooh I'm gunna loose it
I think I'm gunna fall
I need to stay in control

Ooh yes it feels like
I think I'm gunna fall
I need to stay in control

Ooh I gunna loose it
I think I'm gunna fall
I need to stay in control

I am holdin' my head in my hands
I don't think you can understand

I am holdin' my head in my hands
I don't think you can understand

I am holdin' my head in my hands
I don't think you can understand
