

# Slander

## 98 Mute

The word is out -- heads are talkin'  
And just like a fire ragin' wild in the night,  
The rumors hot, the room is rockin',  
It's out of control, too vicious to fight  
Two lovers split -- a heart is shattered  
And out of revenge it steals through the night,  
Making sure the lies are scattered  
To every border of this town tonight  
The word's on the street, you call it truth,  
I call it slander,  
Times are tough, talk is cheap --  
Soon they'll talk about you --  
Slander  
The jury splits -- undecided,  
They're searching for clues,  
My live in their hands  
The hour has come, they stand divided,  
The future shall judge the good and the bad  
And now, there's talk on the street --  
I call it slander,  
I will fight this somehow  
Revenge will be sweet  
Slander -- like a knife in my heart --  
Slander  
Slander -- gonna keep us apart --  
Slander  
Slander c there's talk on the street  
Slander -- revenge will be sweet  
Slander -- I'm ready to fight  
Slander -- I will find it tonight  
Slander -- like a knife in my heart --  
Slander  
Slander -- gonna keep us apart  
Slander  
Slander -- there's talk on the street --  
Slander -- revenge will be sweet  
Slander -- too vicious to fight  
Slander -- wild in the night
