

In The Sea

America

In the sea the fish have learned to fly
On a moonlit night on wings of silver
As the enchanted stars sail serenely by
Do they know where do unicorns go?
Where winged horses fly?
Narwhals lost at sea and never seen again
Go, go and ask the magpie
Where do unicorns go?
In the trees the birds have learned to speak
Gaily colored they keep their secrets
In a parade of clouds playing hide and seek
Do they know where do unicorns go?
Where winged horses fly?
Narwhals lost at sea and never seen again
Does myth and mystery lie
Where the unicorns go?
