

# Tonight Is Your Night

Jesse McCartney

Sitting at the crib with my feet up  
Phone starts ringing, getting blown up  
Got another show that I putted up  
It never slows down  
You walk in and throw your hands up  
Screaming at me, you're fucking fed up  
I do my best to tryin' ta make up  
And calm ya back down  
'Cause there's a million voices calling for me  
When the lights go down  
All you hear is the sound of  
Me calling you  
You're the only one that I call, I do  
In my bed no one else will lay  
It's just for you tonight, it's just for you  
And I can't wait for my eyes to see  
Your birthday suit, it fits perfectly  
This kiss for you, yeah just for you  
Tonight you're the girl that I call, I do  
You got me saying  
Ooh, wooh, ooh, wooh  
To, to, to tonight is your night girl  
(Tonight is your night girl, night girl)  
Yeah, yeah, yeah  
(Ooh, wooh, ooh, wooh)  
You got me saying  
Ooh, wooh ooh, wooh  
To, to, to tonight is your night girl  
(Tonight is your night girl, night girl)  
Ooh, wooh, ooh, wooh, ooh, wooh  
I never wanna take you for granted  
When the earth shakes  
You're the last one standing  
Tonight I'm gonna take advantage  
And let our love  
Nothing should ever come between us  
My work is my work, I do it for us  
Cause when you're alone  
You're never alone, we can work it all out

'Cause there's a million voices calling for me

When the lights go down

All you hear is the sound of

Me calling you

You're the only one that I call, I do

In my bed no one else will lay

It's just for you tonight, it's just for you

And I can't wait for my eyes to see

Your birthday suit, it fits perfectly

This kiss for you, yeah just for you

Tonight you're the girl that I call, I do

You got me saying

Ooh, wooh ooh, wooh

To, to, to tonight is your night girl

(Tonight is your night girl, night girl)

Yeah, yeah, yeah

(Ooh, wooh, ooh, wooh)

You got me saying

Ooh, wooh, ooh, wooh

To, to, to tonight is your night girl

(Tonight is your night girl, night girl)

Ooh, wooh, ooh, wooh, ooh, wooh

Hey, hey

I'm so sorry my baby

That I'm always on the move

But tonight is your night girl

What you wanna do

I'mma turn off the phone

And put my tension on you

And all that you hear

You hear, you hear is

Me calling you

You're the only one that I call, I do

In my bed no one else will lay

It's just for you tonight, it's just for you

And I can't wait for my eyes to see

Your birthday suit, it fits perfectly

This kiss for you, yeah, just for you

Tonight you're the girl that I call, I do

You got me saying, ooh wooh, ooh, wooh

To, to, to tonight is your night, girl

(Tonight is your night girl, night girl)

Yeah, yeah, yeah

(Ooh, wooh, ooh, wooh)

You got me saying

Ooh, wooh, ooh, wooh  
To, to, to tonight is your night, girl  
(Tonight is your night, girl, night, girl)  
Ooh, wooh, ooh, wooh, ooh, wooh  
Yeah, yeah
