

# War to Your Door

## Chamillionaire

In this game it seems that i'm lyrically reaching a point where it's not fair no more  
Hit 'em with that major pain as we shoot and destroy  
It's like i'm bringing war to your front door  
In this game it seems that i'm lyrically reaching a point where it's not fair no more  
Hit 'em with that major pain as we shoot and destroy  
It's like i'm bringing war to your front door, front door... I can get a hooker shot like urban  
You never bust repping just like you a virgin  
Under your girl done hitting a belly like a surgeon  
A hundred milli gotta get it brrr Birdman  
Christina Milian she ain't got her man  
And I don't have no dreams either, i'm working  
Surfing the earth and tryna stay urban  
You see the heater poking out I got the shirt in  
All of these rappers getting jerked without the jurgens  
The similes and metaphors that I be serving gone right over their head, hot turbans  
I got a... and she a Persian  
Ain't got a deal with Eminem but I am burning  
Hot, got a lawyer he's really a diversion  
I'm riding dirtier than 30 days with no detergent  
Ain't really with the beef but the tweets I get at you  
If I ever see you in the streets i'ma slap you  
I don't mean LeBron when the Heat coming at you  
... like young... tattoo  
All this cake getting flipped like a spatula  
Not a act like a chat i'm a natural  
Suits tried to take me out the game what did that do  
Still here like the name of an ear statue  
Bread cheese here funds really high  
Work in the strip club and throw my lunch in the sky  
Front til you die while I spend a month in Dubai  
I'm a guard in the streets alhamdulillah  
Test and I bet that you gon' flunk when you try  
I don't even gotta use my gun to reply  
You get punched in the eye, punched in the eye  
... blood finna fly  
In this game it seems that i'm lyrically reaching a point where it's not fair no more  
Hit 'em with that major pain as we shoot and destroy  
It's like i'm bringing war to your front door  
In this game it seems that i'm lyrically reaching a point where it's not fair no more  
Hit 'em with that major pain as we shoot and destroy

It's like i'm bringing war to your front door, front door  
See the... shoot in the tank i'm in the cockpit  
Bullets that'll jump on your head like it's a moshpit  
Even if you're wearing a bulletproof outfit  
I got a Batman you... Robin like a sidekick  
The rap game really my chick  
Topic is whether Chamillionaire is the topic  
Put 'em on the line i'm telling you that I got this  
Autograph the weapon i'm hitting you with a shot whip  
... million dollar bow tie still be a clown it's equivalent to cho chi  
Go and die know why he will tell the most lies most likely to get hit with the...  
Yo price pow hit 'em with the scorcher what you know about the Chinese, water torture  
Can't run from the lyricism cause it caught ya  
Write it when i'm in your nightmare like an author  
West craving the world what i'm saving  
I got a halla tip that I brought for the occasion  
I put it in a weapon that was made by an Asian  
My mind is a maze and that means that i'm amazing  
Your girl call me papi coming with a posse  
Everybody black i'm the opposite of nazi  
In the major label they be thinking i'm Gaddafi  
I'm taking out anyone who think a nigga stop me  
In this game it seems that i'm lyrically reaching a point where  
it's not fair no more  
Hit 'em with that major pain as we shoot and destroy  
It's like i'm bringing war to your front door  
In this game it seems that i'm lyrically reaching a point where it's not fair no more  
Hit 'em with that major pain as we shoot and destroy  
It's like i'm bringing war to your front door, front door
