

# Cuscutlan

## Frente!

I love my country but it wears a uniform  
It speaks with foreign guns  
In the background you can almost hear  
The sound of intervention And I don't know when Liberty fell  
But we rang every mission bell  
We rang them loud and clearly  
For a world that wouldn't listen I don't want to die  
I'm as innocent as anybody  
I don't even know how to spell revolutionary Jesus in the sky  
The bullets in the guns  
You don't even know  
What we mean by repression Blood is the color of the sunset  
You walked into the darkness  
I did not hear your last breath  
There will not be an inquest This is not human interest  
We danced the dirt with surrender  
For our drumbeat  
Danced for the balance sheet Died for the kind of lasting peace  
That pleases the world's police man  
And Fatherland raped Motherhood  
And told her it was for the global good And now, we ring the mission bell  
To warn their children I don't want to die  
I'm as innocent as anybody  
I don't even know how to spell revolutionary Jesus in the sky  
The bullets in the guns  
You don't even know  
What we mean by repression Blood is the color of the sunset  
You walked into the darkness  
I did not hear your last breath  
There will not be an inquest  
This is not human interest
