

Aya

Black Rebel Motorcycle Club

She's a reckless lover with her blood stained hands
 'Round the neck of her helpless man
She's the midnight silence, an outbound train
She's glory of fallen names Aya, Aya, we're alone
 And there's no room here anymore
 Aya, Aya, we're alone
And there's no room here anymore She's a patient killer, a timeless hand
 The choke of the falling sands
She's a proven saint with a witches tongue
The gods of war at her command Sweet Aya, bring it on
 I wanna kiss you till they're gone
 Sweet Aya, bring it on
 I wanna kiss you till they're gone
Till they're all gone Aya, Aya, we're alone
 And there's no room here anymore
 Aya, Aya, we're alone
And there's no room here anymore She's the broken shadows on the fallen walls
 With no master there's no call
She's the faithful silence that visits all
With no mercy, no remorse Aya, Aya, we're alone
 And there's no room here anymore
 Aya, Aya, we're alone
And there's no room here anymore Sweet Aya, bring it on
 I wanna kiss you till they're gone
 Sweet Aya, bring it on
 I wanna kiss you till they're gone
Till they're all gone Aya, Aya, we're alone
 And there's no room here anymore
 Aya, Aya, we're alone
And there's no room here anymore Aya, Aya, we're alone
 There's no room here anymore
 Aya, Aya, we're alone
