Not Responsible

Depswa

I've taken in all you bring
An ever moving stream of dramatic evolution
And I've taken in what's happening
And poisoned the well you drink from with
An experienced solutionAnd I'm not responsible, not responsible
For what happens when you are goneYou're breathing in all you've seen
An imaginary comfort to create intoxication
And if you only knew what thoughts I had inside
And so good am I to hide
Your heart would hurt and turn to stone just like mineAnd I'm not responsible, not responsible
For what happens when you are gone, I'm not responsible
You're so irresistable, not responsible
And it happens when you are gone, I'm not responsibleNo love
No trust
Just lies
LiesYou've been hidden from the truth
Can't reveal these things to you
And I know that there's no way to change it
And I feeel for what I do
Taking innocence from you
Is just so easy and I just can't stop itAnd I'm not responsible, not responsible
For what happens when you are gone, I'm not responsible
You're so irresistable, not responsible
And it happens when you are gone, I'm not responsibleNo love
No trust
Just lies
Lies
