

Out In the Rain

Julie Miller

These streets all know me the shadows whisper
Tonight keeps looking back at me with neon eyes
And if they've seen you they're not talking
You think by now maybe they'd sympathize
Out in the rain I keep on walking
Out in the rain like the brokenhearted do
I could be wrong but that's where you'll find me
Out in the rain just looking for you
The sky is cryin' the wind's against me
Blows like some fugitive with no place left to hide
I'm down to nothing but just this heartache
That I keep carrying around inside
Out in the rain
