

Light the Skies

Oceans Upon Us

Id sell my soul, to see you smile
Id light the skies, empty the Nile
Id take your hands, or burn my own
All for youDont fall away from me
Dont leave me here
Dont change the subject baby
Leave me in fearPlease take me
Ill find it in your heart
Well flee the floods
Well come out clean
Ill make this all rightThis is my message to you
Ignore the voicemail
My head is slightly damaged
Lifes had its wayIll find it in your heart or minePlease take me
Ill find it in your heart
Well flee the floods
Well come out clean
Ill make this all rightIll find it in your heart or mine
Ill find it in your heartI cant find another way out
(Another way out)
(Another way out)
I cant find another way out
(Another way out)
(Another way out)Ill fight your wars
Well walk away
Ill sell the fears before the wake
And fade outFight your wars
Youll walk away
Ill sell your fears before the wake
(Sing those lines to me; I was never where you wanted to be, never where you wanted)
Fight your wars
Youll walk away
(Sing those lines to me; I was never where you wanted to be, never where you want)
