

# Like Me

## Teen Beach Movie Karaoke

Take the lead,  
she likes it when you're in control  
Let 'em breathe,  
chill out and go with the flow  
Make all the plans  
Don't be impolite  
I know what girls, know what girls, yeah, I know what girls like

A quick glance,  
but your eyes and look away  
Take a chance,  
why not ask him on a date?  
Pick up the check  
No, bake him a pie  
I know what boys, know what boys, yeah, I know what boys like

I know what girls like you know what I mean

I know what boys like, boys like girls like me  
I know what girls like, girls like boys like me  
I know what boys like, boys like girls like me  
I know what girls like, girls like boys like me

Hang with the boys  
Don't let her know how much you care  
Look in her eyes, and tell her if your Evan scared  
You got it wrong.  
No, I got it right  
I know what girls, know what girl, yeah I know what girls like.

Stretched pants  
Cute sweater and sweet perfume  
Don't dress for him, it's better when you dress for you

I keep it loose  
My outfit is tight  
I know what boys know what boys ya I know what boys like

I know what girls like you know what I mean.

I know what boys like boys like girls like me  
I know what girls like girls like boys like me  
I know what boys like boys like girls like me  
I know what girls like girls like boys like me.

All the boys they try to woo me  
The more they chase me the more I resist

All the girls they think I'm groovy  
There's only one girl that's on my list.

I know what girls like girls like boys like me  
I know what boys like boys like girls like me  
I know what girls like girls like boys like me  
I know what boys like boys like girls like me  
I know what girls like girls like boys like me  
I know what boys like boys like girls like me  
I know what girls like girls like boys like me
