# Salty Air

## J.Viewz

Day after day
Watching time go by
Staring at the lonely face of winter in your eyes
Knowing that the calm before the storm weighs on my mind

[Chorus]
I long for lazy days
I long for lazy days
I long for lazy days of summertime (too tasty)

Rain more rain
Washing all my dreams away
My skin is stinging from the chill you left me when you came

[Chorus]

I long for days of summertime
(A sun-drenched divine)
The perfect blend of salty air and wine
(Soaking up the rays)

[Chorus]

Summertime (I long for lazy days)
