

# Salty Air

[J.Viewz](#)

Day after day  
Watching time go by  
Staring at the lonely face of winter in your eyes  
Knowing that the calm before the storm weighs on my mind

[Chorus]  
I long for lazy days  
I long for lazy days  
I long for lazy days of summertime (too tasty)

Rain more rain  
Washing all my dreams away  
My skin is stinging from the chill you left me when you came

[Chorus]  
I long for days of summertime  
(A sun-drenched divine)  
The perfect blend of salty air and wine  
(Soaking up the rays)

[Chorus]

Summertime (I long for lazy days)
