

Let's Get Dead

New Years Day

Avoid the dreadful guillotine
You know you've got to get it right
Where's the poison in your words
You can't kiss yourself goodnight
Jet black lipstick and a look in your eyes
You're running out of time
Lay your heart out! Lets get dead
And start over again
Get your revenge
Don't, Don't let them get much further
Cause' they're getting away with murder Come on, Come on (Come on Come on)
I dare you to impress me
Honey all that I am suggesting
Will soon go out of style
Tick tock tick tock
You're just wasting my time
I haven't got all night
Lay your heart out! Lets get dead
And start over again
Get your revenge
Don't, Don't let them get much further
Cause' they're getting away with murder
Woaaaaah
