Fire and Water

Sideburn

(Fraser, Rodgers)
Every single day,
I got a heartache comin' my way
I don't wanna say goodbye, baby
but look at the tears in my eyes
I don't wanna say goodbye, mama
but look at the way you made me cry
Every way that's nice, you show
You got a heart that's made of ice
And I know...
Fire and water must've made you their daughter
You got what it takes to make a poor man's heart break,
a poor man's heart break
Lover, you turn me on,
but quick as a flash, your love is gone
Baby I'm gonna leave you now,

but I've got to make you grieve somehow
Fire and water must've made you their daughter
You got what it takes to make a poor man's heart break
a poor man's heart break
And my heart is breakin'
I don't wanna say goodbye, yeah
but look at the way you made me cry
Every way that's nice, you show
You got a heart that's made of ice
And I know...
Fire and water must've made you their daughter
You got what it takes to make a poor man's heart break,
a poor man's heart break
