Sorry

Galaxie 500

Well, I'm sorry 'bout the weather
And I'm sorry that the drive was much too far
Seems like everything is business
And we're sorry all the timeWhen we're home, all alone
What is home, on your own?
Home is home, all alone
Where we love the weatherAre you sorry that you love me?
Am I sorry, I love you too?
Seems it doesn't make a difference
That we're sorry all the timeWhen we're home, all alone
What is home, on your own?
Home is home, all alone
Where we love the weatherAll alone, what is home?
On my own, what is home?
All alone, home is home
And I love the weather
