

Sorry

Galaxie 500

Well, I'm sorry 'bout the weather
And I'm sorry that the drive was much too far
Seems like everything is business
And we're sorry all the time When we're home, all alone
What is home, on your own?
Home is home, all alone
Where we love the weather Are you sorry that you love me?
Am I sorry, I love you too?
Seems it doesn't make a difference
That we're sorry all the time When we're home, all alone
What is home, on your own?
Home is home, all alone
Where we love the weather All alone, what is home?
On my own, what is home?
All alone, home is home
And I love the weather
