

# I Adore You

Edward Chen

I Adore You  
When I drive alone at night  
and sit around  
and see the frowns  
of other people down,  
it bores me  
And when I have to listen to  
the points of view of people who  
Are way into bad news,  
it bores me  
I would rather hear  
Hear you whisper in my ear  
That you adore me  
Chorus:  
That you adore me  
and only you get my love  
I adore you in a million ways, night and day  
I adore you and only you can get my love  
In so many ways I
