

# I Should Have Never Started Lovin' You

## The Marshall Tucker Band

There's something in your eyes that reminds me  
Of all the loves I've left behind me  
Looks on your face yes, they tell me  
That I should have never started lovin' you It was true when they said that I was mean and cruel  
All the loves I've had, I've made them out as fools  
Now the tide has turned and I'm lonely too  
I should have never started lovin' you I should have never started lovin' you  
After all the things that we've been through  
I could have spent my whole life with you  
I should have never started lovin' you You hugged me in a way that I had never felt  
Sky turned so dark I thought, I knew you well  
I'm so lonely girl, wish I could leave this world  
I should have never started lovin' you I should have never started lovin' you  
After all the things that we've been through  
I could have spent my whole life with you  
I should have never started lovin' you It was true when they said that I was mean and cruel  
All the loves I've had, I've made them out as fools  
Now the tide has turned and I'm lonely too  
I should have never started lovin' you I should have never started lovin' you  
After all the things that we've been through  
I could have spent my whole life with you  
I should have never started lovin' you I should have never started lovin' you  
I should have never started lovin' you  
I should have never started lovin' you
