We Will Follow

Overlake

In the shadow of the cross where my first love died
In the valley where we learn how to climb so high
Will You open my heart and reach inside
'Til the blood on Your hands is Yours, not mine?Set us free, trust the mystery
Until our eyes are clear enough to see YouWhere You lead us, we will follow
Where You lead us, we will follow YouOn the hill of the rich, in the city of the poor
Where the wealth is in the hands of who needs You more
'Cause there's nothing in our view You haven't made
No one that You've touched that You haven't savedSo set us free to love the mystery
Until our eyes are clear enough to see YouWhere You lead us, we will follow
Where You lead us, we will follow
Where You lead us, we will follow YouOpen up our hearts and reach inside
(Open my heart)
Open up our hearts and reach insideWhere You lead us, we will follow
Where You lead us, we will follow
Where You lead us, we will followWhere You lead us, we will follow
(Open up our hearts and reach inside)
Where You lead us, we will follow
(Open up our hearts and reach inside)
Where You lead us, we will follow
(Reach inside)Where You lead us, we will follow
(Open up our hearts and reach inside)
Where You lead us, we will follow
(Open up our hearts and reach inside)
Where You lead us, we will follow
(Open our hearts)
