Call Out

Feeder

Searching for the things that we can't see
The unknown
I'm just telling you
I'm just saying that things aren't quite the same
This time around
You can't take that away,
You can't take that away, no
You can't take that away
If you wanna hear this song (if you wanna hear it)
If you wanna hear this song
You just, call out, our name
If you wanna hear this song (if you wanna hear it)
You won't have to wait too long
You just, call out, our name
Shapes are twisting time with melody,
Seems so alone,
I'm just telling you,
I'm just saying that things aren't quite so clear
This time around
You can't take that away,
You can't take that away, no
You can't take that away
If you wanna hear this song (if you wanna hear it)

If you wanna hear this song
You just, call out, our name
If you wanna hear this song (if you wanna hear it)
You won't have to wait too long,
You just, call out, call out
You can't take that away,
You can't take that
You can't take that away
[Solo]You can't take that away
You can't take that away, no
You can't take that away
If you wanna hear this song (if you wanna hear it)
If you wanna hear this song
You just, call out, our name
If you wanna hear this song (if you wanna hear it)

You won't have to wait too long,
You just, call out
If you wanna hear this song,
If you wanna hear this song,
You just call out, our name
If you wanna hear this song,
You won't have to wait too long,
You just, call out, our name.
