## The Vandals

I live in the land of the freeways - Home of the smog and traffic - The sun and the air - The mountains and sea -  
Streams and palm trees - The valleys... - The canyons... - The mountains... - The beaches... - Hollywood,  
downtown, the valley - Are all places you should see - The city at night, the city so bright - a short time away a  
campfire sight - The missions... - The mansions... - The farmlands... - Punk rock bands... - People come from all  
over - to work and live in the sun - It's always so nice - my own paradise - The desert , the snow - So many  
places to go - The people... - The places... - The weather... - The faces... - That's for me
