

Mental Case

Dr. Doom

Yo, fuck Octagon
Don't ask me about that fuckin shit
Fuckin ask me about that fuckin shit again
I ain't doin that type of shit (I ain't doin that shit)
You motherfuckers think I'm crazy right? (Yeah you crazy)
I know, but I am I have to show niggaz, word G, I have to blow niggaz
Tech 9's, Carbines, pointin in your fuckin faces
Thirty-eight Magnum butcher knife man, watch me stab em
Q his kid left there, with ambulances, by the wheelchair
Dangerous Action, I'm the movie, I'm the main attraction
Fuck up your front lawn with M'n'M's, Jiffy Popcorn
Piss in your mailbox, throw shitty Pampers every two blocks
Cut up your great Dane, with charcoal out, leavin great flame
You fuckin bastard, don't fuck with me, you gettin blasted
Niggaz get fucked up, you black niggaz are actin white
Your Rolex gone, my project's on your airplane flights
First time you check out, baggage claim will throw your neck out
Cut off your bodyguards, fast start with razor scars
Come grab the sub machines, Joe step to seminars
Niggaz with diamonds, armed crack heads, clock y'all rhymin
Take your girl's necklace, stare at the cops, lookin reckless
Ass on the corner, think you safe workin at Warner Brothers?
Polygram building heard some shots, they want me to chill then
Security ran, Russell Simmons saw me in a black van
I ran the tight intersection, and caught a big erection
Spinnin on 3rd, Lexington, through the fuckin red
I'm in Manhattan, naked wigs, on my fuckin head
Streets full of traffic, drive on sidewalks, that's my habits
Mental case, mental case
{Man, he be likin Campbell's soup, Apple Jacks
Double XL diapers}
Mental case, mental case
{Chocolate milk, porno films
Flintstone tablets}
Mental case, mental case
{Roscoe waffles and make them extra soft okay?}

 {Make sure he gets a girl okay?}
 {Make sure he gets a girl okay?}
 {Make sure he gets a girl okay?} Your style is bitch kid, you fucked up, sound like a woman
 I'm not impressed when you sport mics and touch your breast
 You transvest with small flows, you can't, proper digest
 You open mic stands, you catch one, with sperm in your hand
 I leave you thinkin in your hotels, with pussy stinkin
 Massengil thrills flow through New York, to Hollywood hills
 Your male flow, I'm wipin asscracks like Mop-N-Glo
 MC's get inserts, thrash style selectin bad words
 Move with your silk suits, I stomp your mics with combat boots
 Make up your rap that's feeble, small you think it's major
 I pull your rectum out, erase your girl, off my pager
 International feedback, I make you twist your knee back
 I got your crew on camcorders, tryin to rhyme in Tea back's
 Garter belts on DJ's, sportin tryin to spin on felts
 I see that rugged kid comin through, gimme that screw face
 He's wearin girdles, your back-up man, sportin pink lace
 Hey man you better watch your back up in here man
 They rapin little boys Mental case, mental case

 Your group set up, takin turns, y'all shut the fuck up
 Walk, grab your nuts, leave the Kangol's and scratch your butts
 Stage shows get messed up, you're hardcore, zippin your dress up
 Move on your projects, new shit, that's how I do shit
 Word up G, y'all niggaz sound puss, lick my pee-pee veteran nasty
 Don't even try to fuckin ask me, fax you my phone number
 I beat you down with steel cans and wood lumber
 Open your face up, dress you with makeup
 Have your bitch-made, makin Kool-Aid with your ass out

In a glass house, where convicts wear big dicks
Strong niggaz, got your assholes in the mix
You need protection for that tight infectionMental case, mental case
