Road to Recovery

Midnight Juggernauts

Stars in the sky, they will guide you back home
Float as the night forms a path of its own
Follow the lights, they will guide you back homePath to discovery
Road to recovery
Path to discovery
Road to recoveryPath to discovery
Road to recoveryLaugh as we run from the world we once knew
Songs we once sung, they will come back to you
Wait for the sun as it comes into viewPath to discovery
Road to recovery
Path to discovery
Road to recoveryPath to discovery
Road to recovery
Path to discovery
Road to recoveryPath to discovery
Road to recovery
Path to discovery
Road to recovery
