

Everyday You

Brett Rush

Brett Rush - Everyday You
Words and music by Brett Rush

Every day i wake up
Every day the same old thing
Every day i wonder what's gonna become uv me
Am i gonna go far
Am i gonna be a star
Every day i take this roller coaster ride of life
One thing's the same about every day...

Every day You, You make the sun to shine
Every day You, You guide my steps as i trust in Your daily bread
Every day You, You fill this heart of mine
With a peace and joy and love i can't describe
Every day You

Every day i lay my head to rest i pray
Every day i live i give my best and say
Every breath i take uv every day You make is a gift of grace You have sent my way
And one thing remains about every day

Every day You, You make the sun to shine
Every day You, You guide my steps as i trust in Your daily bread
Every day You, You fill this heart of mine
With a peace and joy and love i cant describe
Every day You
Every day me
Every day You're teaching me a new way to see
Every day You
Every day me
Every day i'm learning how to be

Every day You, You make the sun to shine
Every day You, You guide my steps as i trust in Your daily bread
Every day You, You fill this heart of mine
With a peace and joy and love i cant describe

Every day You, You make the sun to shine
Every day You, You guide my steps as i trust in Your daily bread

Every day You, You fill this heart of mine
With a peace and joy and love i cant describe

Every day You

Every day You

And every day You

And every day You
