My Star

A-Type Karaoke

My friends gonna call me, hey, dreamer
The stars you are watching are so far
Tonight I know I will get there
By plane or by bus, right to my starPretend there are things you just don't know
In spite someone's told you are so cute
You have to ask and I will show
The snow in the summer or so, soIf my star will fall
Or disappeared at allI will follow my star till the end of my days
And my heart's gonna lead me through so many ways
And if you gonna join me, I'll be your guide
Baby, 'Never Say Never', be my 'Runaway Bride'My friends gonna tell me, "Just calm down"
The clouds you are walking are so high
This is my chance and I'll invite
All the dreamers and lovers to fly
(Fly)I'm back from the future, life goes on
But still I remember my promise
You have to ask and I will show
The snow in the summer or so, soIf my star will fall
Or disappeared at allI will follow my star till the end of my days
And my heart's gonna lead me through so many ways
And if you gonna join me, I'll be your guide
Baby, 'Never Say Never', be my 'Runaway Bride'
