Family

Podunk

I was born under open skies
72 sweet july
Blessed with my mama's eyes
Blessed with my mama's eyes
If you could see my mother's eyes, her eyesDaddy kept our bellies full inside
He taught me and brother to love and be kind
I'd follow him around
And watch him bring that hammer down
The strongest man aroundNothing like family
We stick together cause together
Is the only way to be
Nothing like family
We stick together cause together
Is the only way to beI was born under open skies
72 sweet july
Blessed with my mother's eyes
Under my father's pride
If you could see my brother's smileNothing like family
We stick together cause together
Is the only way to be
Nothing like family
We stick together cause together
Is the only way to be
Nothing like family
We stick together cause together
Is the only way to be
