Disappear

Cavo

Can you tell me where to go, it?s killing me and no one knows,
Inside with all this mind, we waste the sunlight waiting for the night
They don?t wanna break me down; they don?t wanna break away from you
Everything?s wrong now, everyone?s gone now,
I can?t keep lying to myself
Cuz everything?s clear now they disappear now
Cuz they don?t wanna stay with you
Can you tell me where to go its killing me and no one knows,
Inside with all this mind, you waste the sunlight waiting for the night
They don?t wanna break me down; they don?t wanna break away from you
Everything?s wrong now, everyone?s gone now,
I can?t keep lying to myself
Cuz everything?s clear now, they disappear now
Cuz they don?t wanna stay,

I shouldn?t be waiting for this life
Maybe another dream won?t die
They can?t be the first and be the last to break away
They don?t wanna break me down; they don?t wanna break away from you
Everything?s wrong now, everyone?s gone now,
I can?t keep lying to myself
Cuz everything?s clear now they disappear now
Cuz they don?t want to stay with you
Everything?s wrong now, everyone?s gone now,
I can?t keep lying to myself
Cuz everything?s clear, now they disappear now
Cuz they don?t want to stay with you.
