Crazy World

Aslan

How can i protect you in this crazy world

Its alright yeah

Its alright

I have fallen down so many times

Dunno why dunno where

don't care less its all the same

I have travelled through so many towns

Dunno why dunno where

don't care less its all the same

How can i protect you in this crazy world

Its alright yeah

Its alright

Can ya hear the sound of nothing nothing
Nothings right nothings wrong
don't care less its all the same
Love is blind love is real
don't ya know that love is what you feel
Its alright yeah Its alright

How can i protect you in this crazy world

Its alright yeah

Its alright

When the talking is over
All the crowd has gone
Nothing left i can do
Am i ever gonna get through to you
Its alright

How can i protect you in this crazy world

Its alright yeah

Its alright

How can i protect when all the crowd have gone Now your partys over and all this world is wrong Its alright yeah

Its alright

How can i protect you in this crazy world Its alright yeah Its alright
