

Kerosene

Sara Hickman

Here we are
Shallow but inspired
Jumping into fires we set
Here we are
We're dumb enough to learn
Risking all we know to forget So don't make me lead the way
Or make me say
It's real
The way
I feel Chorus
'cause words burn like kerosene
Flickering
Then gone
Words burn like kerosene
Seldom seen again Well damn the lies
I'm choking on the truth
Time is passing by
It's no excuse
Stale goodbyes
Oh really what's the use
To try and save what we long to lose So don't make me lead the way
Or make me say
It's real
The way
I feel Chorus
'cause words burn like kerosene
Flickering
Then gone
Words burn like kerosene
Seldom seen again Words burn like kerosene
Flickering
Then gone
Words burn like kerosene
Seldom seen again Sometimes you need to go astray
So throw caution to the wind
Sometimes it carries you away
Ohh please don't hate me when I say Words burn like kerosene
Flickering
Then gone

Words burn like kerosene
Seldom seen againKerosene
Oh seldom seen
Ohh oh oh
Then gone
