

# Supergirl

## Delaney

There's so much to do  
What ever it is you'll see it is you'll it through  
Baby it's your world  
Super girl  
Baby take your time  
You'll figure it out with your beautiful mind  
I'm living in your world  
Super girl

You've come so far in so little time  
Look how much you've grown  
I watch you struggle, I watch you try  
Try to make a life of your own  
So let the tears falling down your face  
Water your dreams, they won't go to waste  
There all yours baby  
There is so much do

Whatever it is you'll see it through  
Baby it's your world  
Supergirl

You made me believe in me  
Showed me something that I never saw  
You've forever teaching me  
You're a never-ending waterfall  
I'm in love....and your sacrifice  
So the ones you love have a better life  
And I thank you baby

There is so much to do  
Whatever it is you'll see it through  
Baby it's your world  
Supergirl  
Baby take your time  
You'll figure it out with your beautiful mind  
I'm living in your world  
Supergirl  
With everything you do  
I'm always so amazed by you  
I wouldn't want to live a day without my super girl  
There's much to do

Whatever it is you'll see it through  
Baby it's your world  
Super girl  
Baby take your time  
You'll figure it out with your beautiful mind  
I'm living in your world  
Supergirl  
(There's much to do) You'll do it all  
Whatever it is you'll see it through -yes you will  
Baby it's your world  
Super girl
