Motor Ride

Columbia

Verse 1
Tell me whatcha going to do
Show me whatcha you're going through
Its all right if you wanna take a motor ride
and tell me whats been going on
show me where it all went wrong
Its all right if you want to take a motor ride RideChorus 1
So tell me whatcha going to do when it all comes around
when you find that I'm still here and I'm everything
now tell me whatcha going to do when it all comes down
when you're standing over there ya you're standing at the edge of tomorrow nowVerse 2
Tell me whatcha going to do
show me whatcha going through
Its all right if you wanna take a motor ride
And tell me where you need to go
show me what i need to know
Its all right if you wanna take a motor ride RideChorus 2
So tell me whatcha going to do when it all comes around
when you find that I'm still here and I'm everything
now tell me whatcha going to do when it all comes down
when you're standing over there ya you're standing at the edge of tomorrow nowBridge
And its hard to see what the world can be when its all in your hands
and i cant believe that you just dont seem to knowChorus 3
Tell me whatcha going to do when it all comes around
when you find that I'm still here and I'm everything
now tell me whatcha going to do when it all comes down
when you're standing over there ya you're standing there at the edge of tomorrow now now now now now.
