No Place Like You

Maddie & Tae

California, cherry cola, sandy skies in Arizona
Smoky mountain, blowing through Tennessee
Oklahoma, sweet Magnolia, Kansas over my right shoulder
Bending strings down in New OrleansEverywhere I go, I see a smile
I wish I could see yours once in a whileThe sun comes up and it sinks back down
On every five star dreaming and every two star town
There's a lot to see from a wishing view
But sometimes I wish I could close my eyes and click my shoes
Cause there's no place like you
No place like you
No place like youKilling time in Texarkana, rolling tide in Alabama
The closer that I get you're still too far
So half a dozen tanks of gas, fighting traffic getting back
I'd a first class seats for your armsThe sun comes up and it sinks back down
On every five star dreaming and every two star town
There's a lot to see from a wishing view
But sometimes I wish I could close my eyes and click my shoes
Cause there's no place like you
No place like you
No place like youEverywhere I go, I see your smile
I wish I could see yours once in a whileThe sun comes up and it sinks back down
On every five star dreaming and every two star town
There's a lot to see from a wishing view
But sometimes I wish I could close my eyes and click my shoes
Cause there's no place like you
No place like you
No place like youCause there's no place like you
No place like you
No place like you
