

What Kind Of Love

Childish Gambino

What kind of love just stays the same?
What kind of love don't die alone?
What kind of love would take this long?
What kind of love don't make it home? Meet me at the studio, I just want to play you something
Meet me at the studio, I just want tell you something Cause you said it's not my heart
Even though we're far apart
Can't remember how to solve... the lies You like to call me koala
I'll be your Simba, you're Nala
Where ever you go I'll follow, the lies Drove for hours just to see your face... [lound sound] "Sorry." Drove for
hours just to see your face
Should have talked just if just to clear the space
But now we stare at each other, bury whatever feeling that was... He text to keep your heart d-stacks, keep your
heart
These girls are smart d-stacks these girls are smart
Don't know Why get a dog its just gonna die?
Everything we love is just going to leave you one day
And that's just real shit he can still spit but whats the point?
I said a lot of stupid stuff.. I think that I was growing up What kind of love don't hurt so bad?
What kind of love don't feel this way?
What kind of love would make me fall?
Little lies [x9]
