

# Long Day (feat. Tyler Blackburn)

Novi

5: 45 on the 405  
Sun on my skin, feels  
like a fire.

Smoke in the air,  
from the burning  
tires, still got a long  
way.

8: 38 I set my keys  
down, pour out some  
veno from my  
hometown, put on  
that record with that  
old song and let my  
song play, let my  
song play.

Ohhhoh it's getting  
colder on the backlot  
tryin to be a big shot.

Ohhhoh it's getting  
spacey in the club  
scene, dancin with a  
dope fiend,

Ohhohhohh gunna  
head back to the  
barn, where it's  
sunny on the farm it's  
been a long day, long  
day.

I feel ya, ya I been  
feelin her, LA is my  
queen sometimes  
she steels ya.

I dropped a got a  
couple of racks on  
this tequila but made  
a Millia yesterday,  
Money, I made it real  
ya, think back to the  
days, I would starve

to pay the bills ya,  
not bad when a  
couple of tries can  
make that deal ya,  
we've come a long  
way, long way.  
Ohhhoh it's getting  
colder on the backlot  
tryin to be a big shot.  
Ohhhoh it's getting  
spacey in the club  
scene, dancin with a  
dope fiend,  
Ohhohhohh gunna  
head back to the  
barn, where it's  
sunny on the farm it's  
been a long day, long  
day.  
Wait, if it's only  
for a minute.  
Ohhhoh I can't stay  
in this place, not  
for a minute .Ohhhoh it's getting  
colder on the backlot  
tryin to be a big shot.  
Ohhhoh it's getting  
spacey in the club  
scene, dancin with a  
dope fiend,  
Ohhohhohh gunna  
head back to the  
barn, where it's  
sunny on the farm it's  
been a long day, long  
day.
