Magic Bullet

Toadies

She finds herself
In the home of a stranger
She senses there's an emptiness
She can fill
She just wants to put her
Whole life behind her
She just wants something
That she can call you

She's looking for
A Magic Bullet,
A Mister Trigger,
And the will to pull it
She's looking for
A Magic Bullet, and time,
Time is not on her side

He takes her hand
The night is determined
And down this road
They know they must go
He just needs one more taste
Of his medicine
He just wants to forget
The days that are gone

(Refrain)
Time is not on his side
And there's only tonight
Time is not on his side
And there's only tonight

(Refrain)
