

# Empire

## Sangam

Skyscrapers, earth movers, ground breakers  
Our buildings rival the heavens, our bridges span the seas  
Ingenuity? is so cunning, innovation is not ours, creativity is a luxury  
We build with our hands what we have in our hearts  
Fight the avalanche, you'll be buried every time  
We run and run and run, keep falling behind  
Fight the avalanche, you'll be buried every time  
We run and run and run, always last in line  
Before lines were lines  
Before time was time  
The author wrote a story in the sky  
And earth below  
Little do we know we have only what we're given  
Light up the sky, we're going where no man has ever gone  
Little do we know we have only what we're given  
  
Light up the sky, we're going where no man's forgotten  
All You are is all we want, it burns inside us all  
We're finding heart in giving soul  
We're walking home into thin air singing  
We are justice fighters with faces of fire  
Many walk away,? but we stand firm  
We are justice fighters with faces of fire  
Our decisions affect our descendants  
We are justice fighters with faces of fire  
Skyscrapers, earth movers, ground breakers  
Our footsteps, bringing purpose, changing history  
Skyscrapers, earth movers, ground? breakers  
Our footsteps, bringing purpose, changing history
