

What I Love About Your Love

OTH [9x01] Jana Kramer

the moon is brighter than the morning sun
the birds sing sweeter and the bees they buzz
a silly little song and we're humming along
dancing like a dandelion, hands swinging in a breeze
floating like a butterfly, falling like an autumn leave
it's no ordinary thing between you and me
it's what i love about your love
knocks me off my feet
takes me on a trip to another galaxy
smacks me with a smile longer than a country mile
gets my heart a runnin' like a river running wild
i can never get enough
that's what i love about your love
you lean over my shoulder and it's over and done
ain't nothing like a feeling of finding that one
it's a piece of the puzzle
ain't no doubt about it
it's a good kind of trouble
it's what i love about your love
knocks me off my feet

takes me on a trip to another galaxy
smacks me with a smile longer than a country mile
gets my heart a runnin' like a river running wild
i can never get enough
that's what i love about your love
it puts my hun in my honey
oh it puts the fun in my honey
it's right on the money
all of the above
it's what i love about your love
knocks me off my feet
takes me on a trip to another galaxy
smacks me with a smile longer than a country mile
gets my heart a runnin' like a river running wild
i can never get enough
that's what i love about your love
that's what i love about your love
that's what i love about your love

the moon is brighter than the morning sun
that's what i love about your love
the birds sing sweeter and the bees they buzz
