

# My Lord

## Nostalgia 77

My Lord knows just where I've been  
On a gilded road with booze of ten  
Anything that last the bullet Zen  
I keep my chin on My chin on, to glory  
I keep my chin on  
My chin on, to glory  
I keep my chin on My Lord says that I'll be saved  
Have everything that I will crave  
So I'm not to be afraid  
I just keep my chin on  
My chin on, to glory  
I keep my chin on  
My chin on, to glory  
I keep my chin on So it seems that today is my day  
My day to walk the glory way  
But if heaven's full of men like you  
But I'll take hell and the devil too  
My chin on, to glory  
I keep my chin on  
My chin on, to glory  
I keep my chin on
