Larry Brown

Wank

black roses, leukemia
took my friend larry brown
thirteen years old and fadin fast
wo oh oh, ain't life a bitch wo oh oh
my grade school my neighbor
mom's smokes and dad's dirty magazines
he lived so cool and care free
i won't take life for granted
i'm too young to die wo oh oh
fate can be so cruel sometimes
my friend remember, remember me
when you're down and you're out pick it up
remember, remember me
when your down and you're out pick it up
when i look, up at night
i count the stars in the sky
it makes me think of larry
cause he was always aiming high wo oh oh
his brother norm and jesse
played loud music had long hair
larry loved his big brotheres
i guess you had to be there
i'm too young to die wo ohoh
fate can be so cruel sometimes
my friend remember, remember me
when you're down and you're out pick it up
remember, remember me
when you're down and you're out pick it up
i can't believe you're gone
guess it's time we carry on
well it's just not the same
without you in the game
black roses leukemia
took my friend larry brown
thirteen years old and fadin fast
wo oh aint life a bitch
remember remember me
when you're down and you're out pick it up(4x)
