

New Friend Request

Gym Class Heroes

Advisory - the following lyrics contain explicit language:

I remember when I first laid eyes on you
My man Tom introduced us but I was too shy to say, Hi
When I finally built up enough nerve to drop a line
You made it clear you wasnt just another MySpace mistress I didnt take it personal
When you ignored my request to be your friend
I spilled my guts and hit send
Waited two weeks for a response and got nothing
Honestly, it only made me want you more Week four rolled around and I was this close to letting go
But something wouldnt let me even though I hardly knew you
It was plain to see we were meant to lock lips
You knock me out with the brass knuckle tats on your hips I was on this website late night lurking
When I got a message from you that was labeled, Urgent!
You said that you werent impressed by lame dudes with no game
Theyre all the same trying to get your instant messaging name But the fact that you hit me back made me smile
You must of saw something you liked
When you were skimming through my profile
You caught me at the most pivotal moment
So now Im e-mailing my love with a dozen digital roses Just click approve
Its so simple
Show me some kind of sign
And let me know its time to make my move Click approve
Come on girl
Baby Im one of a kind
And I aint got time to lose Click approve
You're killing me here
Show me some kind of sign
And let me know its time to make my move Click approve
Come on girl
Baby Im one of a kind
And I aint got time to lose Lets face it, its a sad situation
When we have to resort to keyboards as a means to making relations
But I dont have the patience, I get straight to the point

So this is me at my most honest
No ego, no gym class status, just TravisLove it or leave it, but you gotta admit
On a scale of one to awesome, Im the shit
Just get over it and add me god damn it
Ive been waiting too long
I even wrote a song about itLike to here it? here it go
If Im being too annoying, let me know
(Just let me know)
But its hard for me to not hate, when Im on MySpace
I never see my face in your top eightApproaching six weeks now
Its kinda obvious that your either occupied or playing a game
All my money is on the latter
This is not an LOL matterWhy would you pass up a chance this great?
If there was two forces, and I split them down the middle
I could swing back and forth for three days, rephrase
If I had two horses and I beat them with authority
Id gallop all the way to Canada to see your faceBut all I got is this Power Book and iChat
Besides I hit you all the time and you never write back
I stay on my feet
(Shit)
And be persistent until my name is under who you'd like to meetJust click approve
Its so simple
Show me some kind of sign
And let me know its time to make my moveClick approve
Come on girl
Baby Im one of a kind
And I aint got time to loseClick approve
You're killing me here
Show me some kind of sign
And let me know its time to make my moveClick approve
Come on girl
Baby Im one of a kind
And I aint got time to loseWho cares if we dont know each others last name?
All I know is that Im smittin with your pictures
Wishing you would feel the same
I admit I get a little jealous when other dudes leave you comments
Dont let it gash you up, its all nonsenseMaybe Ive been romancing a thought
Of me and you speaking in tongues
In this mansion I bought but its all wishful thinking
Just give me some kind of sign
And let me know Im not freaking you outAnd if you lovin what Im speaking about than sing something
I check my inbox ten times and aint nothing
You probably busy doing something sexy
I just hope Im in your thoughts next time you log inAnd if not, aint no love lost between you and me
Ill be here like your man in fully down as he used to be

So yeah, its time to sign out my vision's getting blurry
This is madness, XOXO dash TravisJust click approve
Its so simple
Show me some kind of sign
And let me know its time to make my moveClick approve
Come on girl
Baby Im one of a kind
And I aint got time to loseClick approve
You're killing me here

And let me know its time to make my moveClick approve
Come on girl
Baby Im one of a kind
And I aint got time to lose
