The Final Chapter

Rimshot

During some abductions, I'm aware of them
Of they're taking sperm samples
In many different ways
They've done it in many different waysWith tubes, with a like catheters
There's one way I not been able to deal with
Emotionally or under aggression
And that's when there's a being on top of meAnd I can feel it growing stronger
And the hate towards them
I've got nothing to live for
Only to stay as another victimThey've been torturing me my whole life
I cannot understand whyFor how long can I go on
When they have already raped every inch of me
Why won't they leave me alone
This is not the life I've chosenIt's time to put an end to this pain
I wanna get away from this hellThose black empty eyes is haunting me
Hate and sorrow builds up inside
I must take my life to be free
This will be my final chapter
