

# Up All Night

## Take That

Sometimes I see your face, looking at me  
All your love and grace, smiling at me  
All the things we had, but never understood  
At times it cuts me up, thinking of you  
All the hope I've got, wasted on you  
All the talks we had, never did no good Oh maybe, I don't need you to save me  
I just want you to help me  
'Cause you're keeping me up all night  
I'm so tired of waiting  
Waiting here for nothing  
I should be up all night with you Pour another glass  
While I watch the bottle disappear  
While I watch the morning light appear  
Thinking about you Oh maybe, I don't need you to save me  
I just want you to help me  
'Cause you're keeping me up all night  
I'm so tired of waiting  
Waiting here for nothing  
I should be up all night Oh maybe, I don't need you to save me  
I just want you to help me  
'Cause you're keeping me up all night  
I'm so tired of waiting  
Waiting here for nothing  
I should be up all night with you I met this girl last night and she said  
Why won't you marry me?  
He met this girl last night and she said  
Why won't you marry me? But I'm too young for that, too dumb for that  
Too broke for that, too tired for that  
Too proud for that and I'm too gone for that  
But would you like to come by to my flat? Oh maybe, I don't need you to save me  
I just want you to help me  
'Cause you're keeping me up all night  
I'm so tired of waiting  
Waiting here for nothing  
I should be up all night Oh maybe, I don't need you to save me  
I just want you to help me  
'Cause you're keeping me up all night  
I'm so tired of waiting  
Waiting here for nothing

I should be up all night with you And c'mon you [Incomprehensible]
